Nancy-Université

Organised by the Department of Engineering, University of Ferrara (Italy, www.ing.unife.it) and supported by the "Intelligent Control and Diagnosis" (ICD) Working Group (France, <http://www.icd.cran.uhp-nancy.fr/home.html>)

Topics

Advanced computer science and control, automotive control, computational intelligence, decision, dependability, fault detection and isolation, fault-tolerant control, intelligent distributed discrete events systems, intelligent methods for system identification and control, mechatronic system control, monitoring, networked controlled systems, pattern recognition, reliability and maintenance, safety, signal and image processing, system identification, vision and robotics.

Submission Instructions

Notice that no copyright is required for the papers submitted to the ACD 2010 Workshop. Authors are invited to submit regular papers of up to 6 pages in double column, according to the IFAC style. Full regular papers will be presented orally or as a poster presentation as determined by the Program Committee. ACD 2010 also solicits student research papers, up to 4 pages, which should describe original works and results achieved by student and young researchers. Detailed submission information is available on the workshop website.
